

OUR CESSARO

OPUS-I SUBSYSTEM

“It’s all about the bass...”

Cessaro Subsystem

You want a bit more “basement”, more fundamentals, some more bass drive? **Here is our subwoofer system that can extend the capabilities of our Opus I and Gaia I systems even more.**

It provides a proper foundation where the systems will build upon and gives that additional room filling bass volume that creates the feeling of listening to a large speaker system. It makes a difference to the sound stage and leads to a more stabilized focus of the Opus I and Gaia I systems.

Tech data:

Concept	closed box design active with D-class amp and DSP
Bandwidth	20-100 Hz
Bass	2x 13" drive units
